Dental Warranty

The long-term success of the dental treatment we provide for you depends upon your continuing home care of your teeth and gums, regular professional exams, cleanings, and radiographs (x-rays). The products recommended by us for you and the frequency of those professional care visits depend on your individual condition. Those visits may be every 2, 3, 4, or even 6 months apart depending on your oral health. With that in mind we offer the following limited dental warranties.

Composite (tooth-colored) Fillings

If a composite restoration is the recommended treatment of choice, we will replace or repair it in the event of failure for a period of 2 years. You must keep the prescribed radiographs and regular recall appointments or this warranty is null and void (minimum every 6 months).

Crowns, Bridges, Inlays, and Onlays,

We will warranty these most comprehensive procedures for a full 5 years. We will replace or repair them at no charge during this five year period if they break, are lost, or decay with normal use. (This does not include accidents that could also break normal healthy teeth.) You must keep the prescribed radiographs and regular recall appointments or this warranty is null and void (minimum every 6 months).

Full Dentures and Partial Dentures

We will warranty full dentures and partial dentures for a period of 3 years if a tooth chips or breaks, or a flange breaks under normal use. This warranty does not cover accidents such as dropping your full denture or partial denture. Full upper and lower denture patients must be seen once every 12 months. Patients with some of their own natural teeth must be seen at the prescribed radiographs and recall appointment or this warranty is null and void (minimum every 6 months).

As you can see, we are confident of the durability of our treatment as prescribed for you. The primary key to your long-term success is spending a few minutes a day on your home care, brushing, flossing, fluoride, and prescribed products. The second key to success is regular professional examinations, cleaning, X-ray films and fluoride treatment (2, 3, 4, & 6 month intervals depending on your condition). This warranty does not cover accidents that cause damage to teeth or dental prosthesis. Failure to have these regular visits with our office voids all warranties. Help us to help you maintain your teeth for a lifetime.
